RE: Access to the SWOG Patient-Reported Outcome Questionnaires Training Program

MEMORANDUM

The purpose of this memorandum is to provide instructions on interim access to the SWOG Patient-Reported Outcome Questionnaires Training Program.

SWOG protocols involving Patient-Reported Outcomes and administration of questionnaires require participating sites to ensure that anyone involved in the collection of patient-reported outcome or quality of life data to review the above-referenced training program. Currently, SWOG protocols indicate that the training program is accessible from the SWOG CRA workbench, however the training is in the process of being migrated to the SWOG learning management system (LMS). In the interim, participating sites may access the SWOG Patient-Reported Outcome Questionnaires Training Program from: https://www.youtube.com/watch?v=1QztYnyimmU&feature=emb_logo.

Please direct questions pertaining to patient-reported outcome assessment training to: cancercontrolquestion@crab.org

Please direct any protocol-specific (collection timepoint, data reporting) questions to the contact listed on the CTSU or protocol-specific contact page or to the SWOG Statistics and Data Management Center via one of the committee-specific email distribution lists below or by phone at 206-652-2267.
