

Southwest Oncology Group

A National Clinical Research Group

May 15, 2010

TO: ALL SOUTHWEST ONCOLOGY GROUP, CCOP, UCOP AND AFFILIATE
MEDICAL ONCOLOGISTS, SURGEONS, RADIATION ONCOLOGISTS
AND PATHOLOGISTS

FROM: Dana B. Sparks, M.A.T. – Director of Operations and Protocols

RE: **S9808**, "Long Term Follow-Up Protocol: An Administrative Tool." Study
Coordinator: E. Armstrong (Quality Assurance Coordinator)

MEMORANDUM

Study Coordinator: Elaine Armstrong
Phone number: 210/614-8808
E-mail: earmstrong@swog.org

IRB Review Requirements

- Full board review required. Reason:
 - Initial activation (should your institution choose to participate)
 - Increased risk to patient
 - Complete study redesign
 - Addition of tissue banking requirements
 - Study closure due to new risk information
- Expedited review allowed
- No review required

MEMORANDUM

This memorandum serves to notify institutions that the "List of Applicable Protocols for **S9808**" and the "List of Protocols with No Required Follow-Up" electronic reports accessible from either a link from the **S9808** study abstract on the web site (at <http://swog.org>) or from the CRA Workbench on the web site have been updated. We recommend that you check these lists at regular intervals as trials are added to each list regularly.

We recommend that prior to the date of your next scheduled annual review of **S9808**, you generate the report of updates to both of these lists (using the date of your last report to your IRB as the starting date). One list will tell you which studies have been added to the "List of Applicable Studies" for this protocol since you last reviewed the study. The other list will tell you which studies have been either added directly to the "List of Protocols with No Required Follow-Up" or moved from the "List of Applicable Studies" to the "List of Protocols with No Required Follow-Up" since you last reviewed the study.

Attached are lists of all studies added to each list from 1/15/2009 through 5/10/2010.

For questions, contact Elaine Armstrong (Quality Assurance Manager) in the Operations Office.

cc: Elaine Armstrong
Jacqueline Benedetti, Ph.D.

Operations Office

4201 Medical Drive (Suite 250) • San Antonio, TX 78229 • Telephone 210-614-8808 • FAX 210-614-0006 • <http://swog.org>

List of Protocols with No Required Follow-Up

Enter a date to only see studies added to the list after that date. Leave the date blank to see all studies.

Please note -- "Keep Study Records Until" means that all regulatory and patient study records (not medical records) for that study may be destroyed after that date.

Always follow institutional policy before destroying any records (research or source).
