

ATTENTION: As part of our effort to move toward a more cost effective and paperless system of communication, effective 1/15/01, AFFILIATE Program institutions will begin receiving zero paper copies of bimonthly mailing items that are available on the Southwest Oncology Group website (<http://swog.org/>). AFFILIATE institutions will be required to obtain these items by downloading them from the website.

AFFILIATE institutions will still continue to receive a single copy of the mailing Table of Contents, and a single copy of any items that are either not available on the Southwest Oncology Group website or are available only through a link to another cooperative group's website. If you have questions, please contact Connie Barnes in the Operations Office.
