

**Southwest
Oncology Group**

A National Clinical Research Group

January 15, 2009

TO: ALL SOUTHWEST ONCOLOGY GROUP, CCOP, UCOP AND AFFILIATE
MEDICAL ONCOLOGISTS, SURGEONS, RADIATION ONCOLOGISTS
AND PATHOLOGISTS

FROM: Dana B. Sparks, M.A.T. - Protocol Product Line Manager

RE: **S9808**, "Long Term Follow-Up Protocol: An Administrative Tool." Study
Coordinator: E. Armstrong (Quality Assurance Coordinator)

MEMORANDUM

Study Coordinator: Elaine Armstrong
Phone number: 210/450-8808
E-mail: earmstrong@swog.org

IRB Review Requirements

- () Full board review required. Reason:
 - () Initial activation (should your institution choose to participate)
 - () Increased risk to patient
 - () Complete study redesign
 - () Addition of tissue banking requirements
 - () Study closure due to new risk information
- () Expedited review allowed
- () No review required

MEMORANDUM

This memorandum serves to notify institutions that the "List of Applicable Protocols for **S9808**" and the "List of Protocols with No Required Follow-Up" electronic reports accessible from either a link from the **S9808** study abstract on the web site (at <http://swog.org>) or from the CRA Workbench on the web site have been updated.

We recommend that prior to the date of your next scheduled annual review of **S9808**, you generate the report of updates to both of these lists (using the date of your last report to your IRB as the starting date). One list will tell you which studies have been added to the "List of Applicable Studies" for this protocol since you last reviewed the study. The other list will tell you which studies have been either added directly to the "List of Protocols with No Required Follow-Up" or moved from the "List of Applicable Studies" to the "List of Protocols with No Required Follow-Up" since you last reviewed the study.

Attached are lists of all studies added to each list during the 2008 calendar year.

For questions, contact Elaine Armstrong (Quality Assurance Manager) in the Operations Office.

cc: Elaine Armstrong
Jacqueline Benedetti, Ph.D.
